HOW IT WORKS

A Challenge Cup focuses on the larger team accomplishment. Teams are formed and pairings are created where everyone is on a level playing field for a 9-hole match play. This allows all golfers, regardless of their skill level, to contribute points for their team in the hopes of winning the Canton Chamber Challenge Cup!

With a proven handicap system, a "to level the playing field" exists of any match by starting a team "up" in the match instead of "all square".

Each match is worth one point. Any match that finishes "All Square" (tied) is "halved" and each team receives a 1/2 point. Each half or full point moves the team closer to claiming the Challenge Cup.
